

Treating Autism Chart

ISSUE	Did Child Present Issue Before Therapy (yes or no)	Intervention Used / is issue still present?
Aggressive Towards others	Yes	Sometime when frustrated yes-therapy and biomed
Anxious/fearful	Yes/Yes more toward his younger years	Fearful no anxious a little-still working on biomed
Constipation	Yes was this way from 6mos old till he was 12yrs old	He is not longer constipated! Biomed helped him go everyday
Destructive of things	sometimes	Sometimes when frustrated-therapy and biomed
Diarrhea	No never had this	
Did not point	He did point	
Feeding/eating (self limited)	Major eating issues when he was younger. Very limited on what he would eat. Texture/sensory issues	No eating issues now and eats a lot more variety of foods-My fiancés cooking and biomed
Vaccine reaction w/in 24 hours:	He never had reactions to any vaccine that I can remember, but he was a very sick little boy. Always in/out of hospital for respiratory issues from 6mos to 4 yrs then managed with nebulizer and steroids from 4-9yrs	
- DPT		
- MMR		
- Hep B		
Head banging	Yes a lot more when he was younger	Not present anymore
High pain threshold	Not really	
Hyperactive	Yes	Very little now only when he gets exciting- biomed
Inattentive	Yes	We still have this going on but working on it- biomed
Intolerant of change	Yes	No- therapy and a lot of pre-loading helped
Normal then regressed	My son didn't regress like other kids did with losing a lot of what they learned. My sons was more of a gradual thing	

Poor eye contact	Yes	Sometimes if he is in trouble but defiantly has gotten better- biomed
Repeated courses of antibiotics	Only when in the hospital did he get antibiotic (he had pneumonia) and he also took prednisone	
Repeated ear infections	Lucky for us he did not have any ear infections	
Rocking	Yes	We still have a little bit of this going on- biomed and therapy
Self injurious	Yes	Only when frustrated- therapy and biomed
Sleep difficulties	No, but when we started medication (6yrs old) he did	No sleep issues once he got off the medications. Actually slept in longer when he got off of them.
Sound sensitive	Yes	Not as bad as it was when he was younger; but sometimes we do- biomed
Stimming:	Yes	We still have this going on and working on it- biomed
- Hand flapping	Yes	Only when excited now- therapy and biomed
- Lining up objects	Yes	Sometimes this happens not as often as it was when he was little- therapy and biomed
- Spinning	Yes	No he doesn't do this anymore it was when he was younger- therapy
- Toe walking	He may of done this when he was a toddler...I don't recall	
- Other:		
Tantrums	Yes	When he doesn't get his way- this is on occasion- therapy
Toilet training problems	Yes he was not fully potty trained until he was 5.5 yrs old	Just kept with him and we did it by ourselves
Unaware of danger	Yes	Were almost there still working on this- therapy
